EDUCATION

Queen Mary University of London
M.Sc. Sound and Music Computing (Distinction)

Sep 2022 - Sep 2023

Nanjing Audit University
B.M. Information System Management (85.80 + scholarship)

Sep 2016 - Jun 2020

RESEARCH EXPERIENCE

Mountaineering Acoustics Network
EnCodec-driven E2E Neural Audio Codecs for
Soundscape Research

Mar 2025 - current

Conducted field research capturing ecological soundscapes using professional audio equipment. Developed annotation workflows for complex audio corpus analysis.

Communication Acoustics Lab (COMMA)
VAE-GAN Timbre Transfer Model for Speaker
Anonymisation

Jan 2023 - Aug 2023

Developed machine learning system for analyzing and transforming vocal characteristics. Applied deep learning methods to identify and model complex patterns in speech signals. Trained on large-scale audio datasets with rigorous evaluation metrics.

Advisor: Dr. Charalampos Saitis

LANGUAGES

English	C2
Chinese	Native

SKILLS

Python	3+ yrs
C++	2+ yrs
Audio Processing	3+ yrs
Deep Learning	3+ yrs
Linux	5+ yrs

PROFESSIONAL EXPERIENCE

Mantle Sound
Owner

Jan 2025 - current

Conducted field research in extreme environments, including 4,000m altitude acoustic investigation in Aba Prefecture, China. Applied systematic methods for environmental data collection and analysis.

Independent Research Period
Remote

Oct 2023 - Dec 2024

Conducted interdisciplinary research with field recording experiments across multiple countries (China, UK, France, Switzerland). Developed expertise in advanced audio signal processing and acoustics.

Shanghai Yixu Network Technology Co., Ltd, China
Java R&D Engineer

Aug 2020 - Mar 2022

Developed NAS product line with real-time messaging for multi-user collaboration. Built and maintained XMPP-based communication system using Openfire.

MEMBERSHIPS

British Wittgenstein Society (BWS)	Since 2025
The Association Les Amis de Xenakis	Since 2025
International Playing-Card Society (IPCS)	Since 2025
Young Acousticians Network	2024 - current
Free Software Foundation	2022 - current
